FAQ

Why need to format the USB key/device via the LSTC format button:

** If you do not format your USB key as required by the provided 'format tool', the ThinkPad Maintenance Utility will enter "Read Only" mode and
you can view but cannot change anything. the error message will like: TpReadEEPROMBlock : Write access to Block#84 is denied...

Not all connected USB key/device are recegnized/accepted:

only Removable USB device can be supported by LSTC tool, as it is ThinkPad Maintenance Utility 's limitation.

Refer to figure:
